## *Enjoy a refreshing dip*

In summer 2016 the Alpeiner Nature Resort Tirol proudly unveiled its very own little 'mountain lake'. With a water surface area of around 350 square metres, the custom-designed natural bathing pond offers blissful refreshment with pleasant temperatures. Fed with pure, clear spring water from the Stubai mountains and equipped with an ingenious filter system, the pond is naturally self-cleaning and no chemicals whatsoever come into play. This ensures that the water retains its outstanding quality enabling health-conscious guests or people with sensitive skin to enjoy a swim with no worries or qualms. Covering an area of over 1,500 square metres, the spacious bathing lawn enjoys a slightly elevated setting offering Alpeiner guests a breathtaking view of the Stubai mountain scenery. During the winter months, when the pond naturally freezes over, our guests enjoy using it for ice-skating and curling. Pure nature, pure pleasure!

With the Alpeiner as your “base camp,” you can enjoy the world of winter sport to the full. As a special service, we offer a free shuttle service from Alpeiner directly to the Stubai Glacier and back again. The “Elfer” ski lifts are located right in front of the Alpeiner. The local mountain boasts a dynamic downhill run as well as one of the Tyrol’s most scenic (floodlit) toboggan runs.
